

Draft Vision / Mission / Values (11/3/2021)

Vision *(what the Solid Waste System will become in the future)*

Residents, employees, and students choose to reduce, reuse, and recycle resources in a world class solid waste system

Mission *(the overall purpose of SWEO)*

Educating the community and ensuring that the prevention and processing of their wastes attain the highest value and best use

Values *(how people in the organization should behave. Guidelines for decision making)*

- We serve the entire community
- We offer state of the art transfer stations, material recovery, and moderate risk waste facilities.
- We ensure full access to everyone in the county, especially marginalized populations
- We educate so our community understands how the solid waste system works so they can use it correctly
- We provide high-quality hazardous waste management options
- We measure our programs for success
- We foster partnerships to minimize waste
